

JOYCEeasy next FF

JOYCEeasy Full Face

JOYCEeasy nasal

# JOYCEeasy

... ingenious simplicity.

Nasal or Full Face. Simply easy.

It could not be any simpler. Everything about our ventilation mask JOYCEeasy is designed for easy use – from simple mask adjustments directly on the patient's face to intuitive handling. Because the mask fits so well, JOYCEeasy also encourages better therapy compliance by minimizing leaks and pressure points. The quiet, diffuse exhalation system ensures a peaceful bedroom atmosphere.

Ingenious simplicity everywhere:

- Unlimited freedom of movement provided by the ball-and-socket joint **1**
- Quiet and diffuse exhalation system **2**
- Mask can be put on and taken off with just one hand
- Color-coded hook-and-loop tabs **3**
- Extremely robust plastic
- Quick-release cord (only Full Face)

## JOYCEeasy next FF

## JOYCEeasy Full Face

... the perfect duo.

The right fit for everyone.

We heard you.

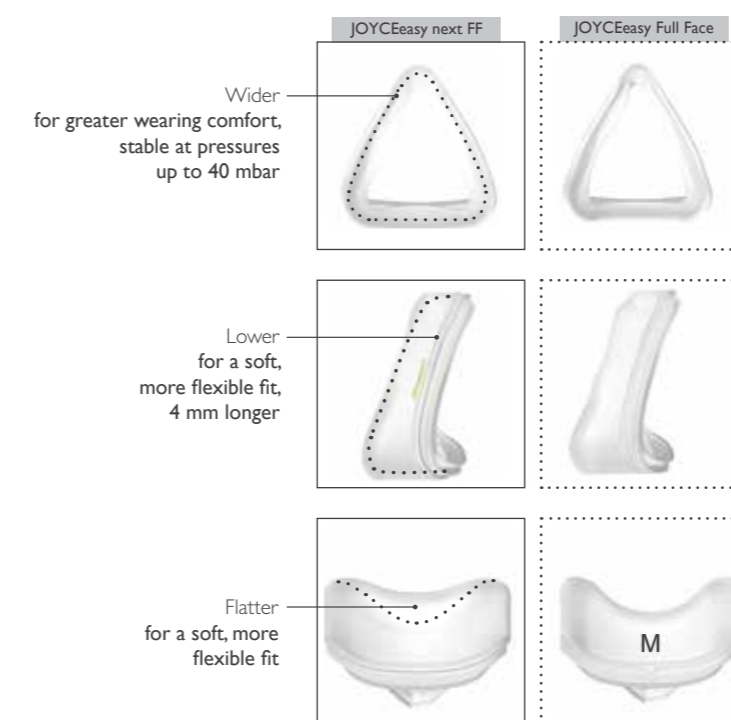

And we reworked JOYCEeasy Full Face to satisfy your practical needs.

JOYCEeasy next FF now features a completely redesigned large mask cushion that has a comfortable and firm fit even at high pressures.

The headgear too remains securely in place at high pressures. Thanks to the right material mix and ergonomic design, the headgear clips can be easily loosened from the mask.

Your benefit – The right mask for everyone:

JOYCEeasy next FF = normal to obese  
JOYCEeasy Full Face = slender to gaunt

## JOYCEeasy nasal

Thanks to your feedback, we have made more improvements to the JOYCEeasy mask cushion.

The wider and softer cushion sits lower across the bridge of the nose and easily accommodates larger noses comfortably. The flatter and more flexible upper lip area lies more gently on the face.

Now even more patients can benefit from the enlarged mask cushion.

Don't worry! The size of the cushion has not been changed in Size S, which still fits small faces.
